

Prefab Building System

ABOUT US

We are a provider of turnkey prefabricated building systems. We specialise in the provision of, administration buildings, offices, class rooms, clinics, staff accommodation, residential houses, dormitory accommodation, canteens, kitchens, dining rooms, stores, workshops and site offices. Our systems are well suited to the African climate. Our dedicated management team has a hands on approach visiting sites and customers on a regular basis.

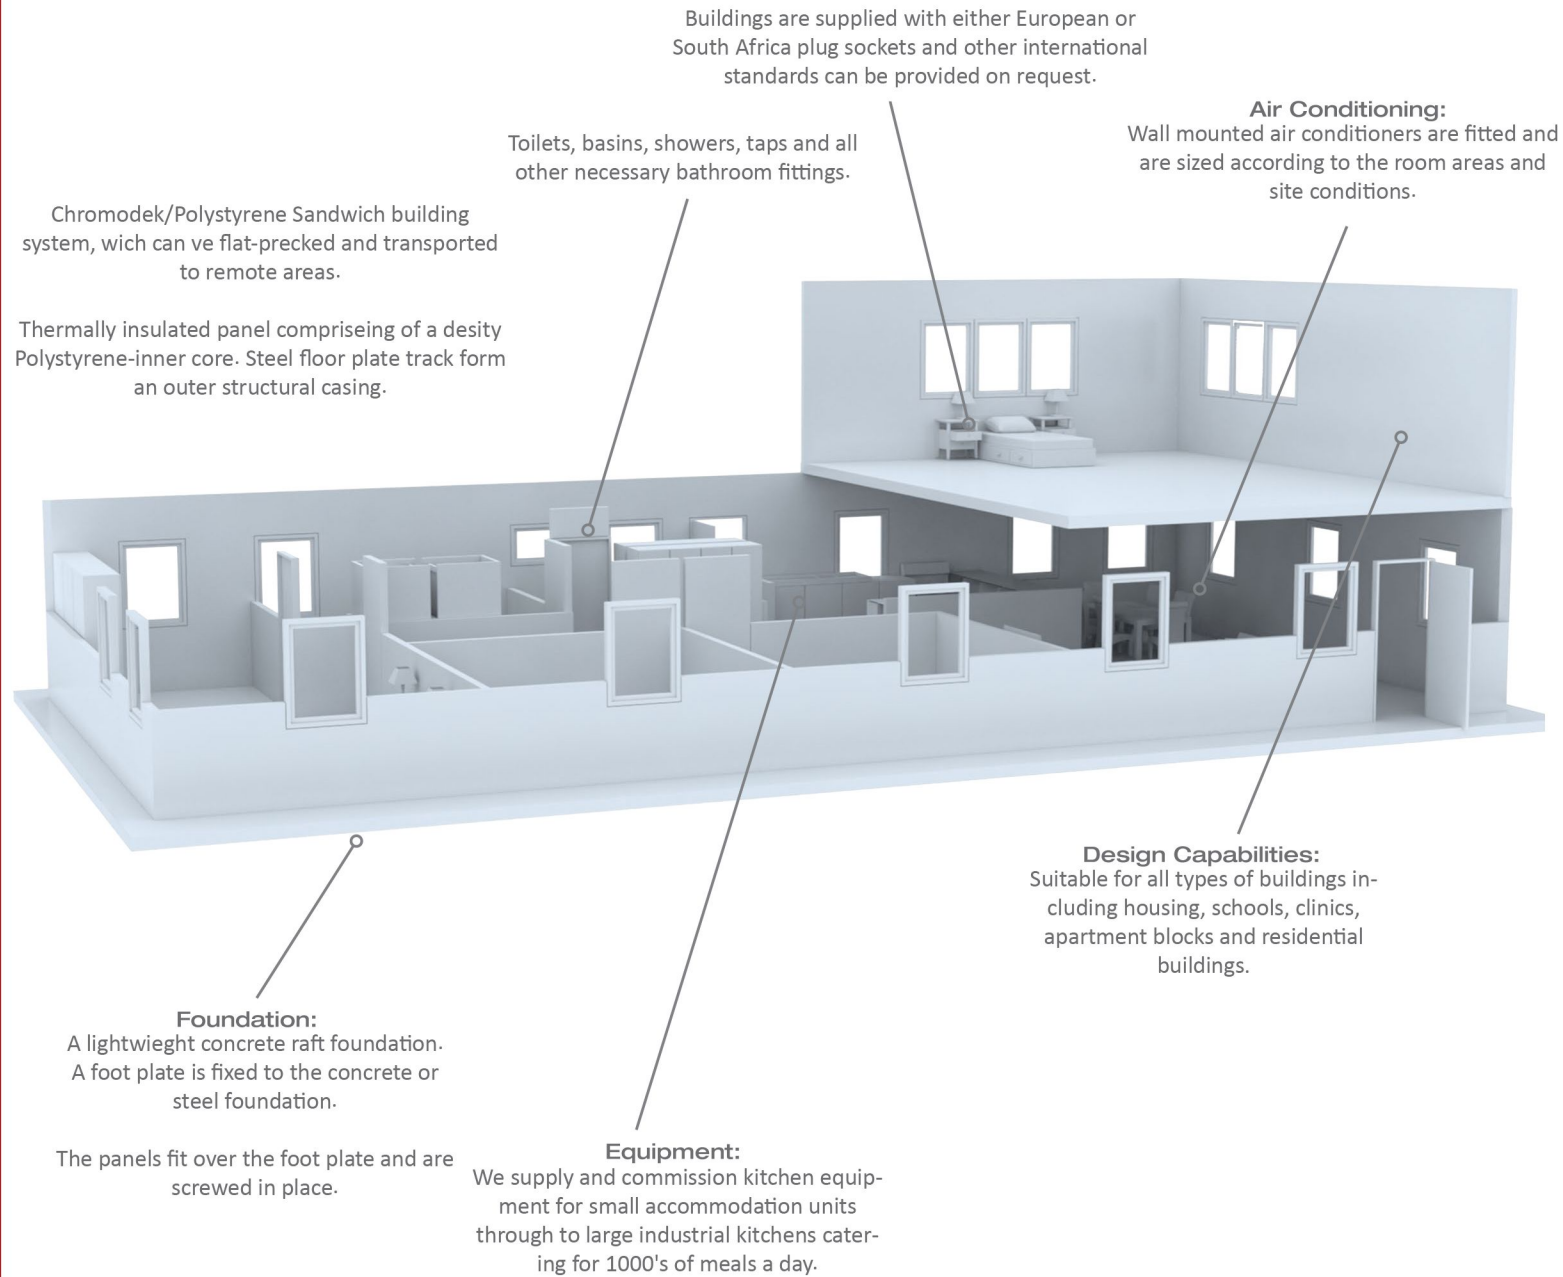

Our prefabricated system lends itself to quick and cost effective solutions. Our prefab buildings are insulated, acoustically sound, rust proof, termite proof and low maintenance and can be relocated.

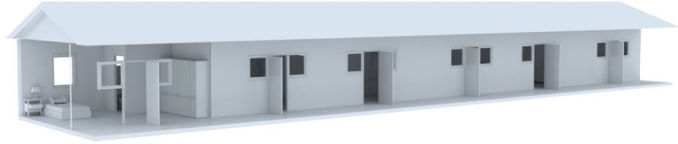

SERVICES

We offer our clients flexibility in designing buildings and facilities to their specific needs, be it on site erection for longer term projects or rental units for short term projects.

Our erection teams include project managers, site managers and safety officers - all highly trained and experienced. Where possible we utilize local labour and suppliers ensuring the transfer of skills and the support of local communities.

Our panels conform to ISO 9001 standards, electrics to South African Bureau of Standards and all other disciplines to the National Building Standards of South Africa.
